SCOPE OF WORK COLLEGE TIMETABLE

SCOPE OF WORK
Installation and Supply of college timetable software for 1 year period (2026) • The COLLEGE is looking for a timetable software which will be in a position to integrate with our administration system(ITS). • The application should be designed to manage all curriculum-related placement within the TVET College. • The system must be in a position to import and export data from administration system software and integrate with ITS. • Training for all users that will use the time table. Key Features: • Combine classes with different lectures teaching at the same time. • Allocate centres and simulated venues. • Schedule a class in a specific venue for an entire day.
